<b>13.</b> (CHEM_T_13:S13) <b>General comments about the Teaching Assistant:</b>
Leslie was a fantastic TA and so was Andrej (even if he wasn't an "official" TA). They both were very helpful, friendly, and informative throughout the entire course.
Best T.A.s EVER!
Leslie was a great TA to have. Very approachable and helpful. After the first lab report, when she was more clear about what she wanted in the reports, it was easy to follow what she wanted, and to fulfill her expectations. It was also great to have a relaxed lab atmosphere.
